

Being on a kidney transplant list shouldn't stop people from travelling abroad or to another city - for holidays or a short break. At Diaverum, we're committed to empowering all patients to live fulfilling lives.

Our newly-launched **d.HOLIDAY Fly Back Programme** addresses a key concern for many eligible kidney transplantation patients that can severely curtail their mobility and freedom of movement – that is, what should happen if they get the call from their transplantation coordinator whilst being away from their normal base of treatment?

Diaverum's d.HOLIDAY Fly Back Programme enables you to plan trips with confidence, knowing you can return home quickly for your transplant, free of charge.

### Hear what others have to say

Dr. Domingos Machado, Nephrologist and Diaverum's Transplantation Ambassador, shares his thoughts about the programme:
